Roke Intelligence

Simplifying complexity, empowering decisions

At Roke Intelligence, our vision is to redefine global standards in commercially outsourced professional intelligence. We deliver unparalleled intelligence capabilities integrating the expertise and tradecraft of human intelligence professionals with cutting-edge technology and data.

Redefining professional intelligence

Our pledge is to provide tailored intelligence solutions, using a personalised approach that meets the unique needs of our clients. We deliver a comprehensive suite of open-source and proprietary intelligence capabilities that empower clients to make faster, more accurate decisions.

Driven by a commitment to efficiency and precision, we deliver pioneering platforms, tools, and analytics to transform intelligence tradecraft through the automation of in-house analysts' workflows. Leveraging over five decades of intelligence tradecraft expertise, we convert publicly available information and data into high-value actionable intelligence.

Features & Benefits

Geospatial Platforms

World class bespoke and off-the-shelf platform solutions that harness the power of Big Data, Intelligence and Technology.

Data Driven

Authoritative, open-source, commercial, proprietary, and customer datasets are fused to provide a holistic, unrivalled, complete operational picture.

Human Centred

Specialist tools, designed by operators for operators, are backed by a team of dedicated developers, intelligence officers and geospatial analysts.

Intelligence Services

Knowing where, knowing first and knowing more is the golden thread that weaves our intelligence assessments together when delivering actionable insights to commercial and defence customers.

Competitive Advantage

Intelligence is about gaining an advantage. It isn't about the amount of data you have; it is about the quality of that data and the associated insights you can draw from it.

Situational Awareness

Seamless access to a suite of geospatial intelligence tools, curated datasets, and customised automated alerts to enable data-enabled awareness.

Partnerships

From electro-optical to synthetic aperture radar imagery, dark web scrapes and radio frequency data, we leverage our partner network to curate the best possible solution.

Roke Intelligence redefines the landscape of professional intelligence, offering data-driven solutions that enable informed decision-making and a competitive advantage in a dynamic global environment.

Roke are Changing Worlds

Roke is a leading UK innovator in science and engineering. For over 60 years we've been improving the world through innovation, combining the physical and digital. We conceive, design and secure technically advanced data and communication systems for governments and industry.

Our deep knowledge of sensors, communications, cyber and AI means our 600+ engineers are uniquely placed to combine and apply these technologies to solve real world technical challenges and help deliver critical missions for our customers.

As a trusted partner, we welcome any problem, and are confident that our consulting, research, innovation and product development will keep people safe.
